Several papers, generally believed to be well informed, say that the French troops will remain encamped at Tamatave till the Hovas send Commissioners to them, which they expect will be soon. On their side, the English papers say that the native garrison defending Antananarive, the capital, consists of 5,000 men well armed and perfectly disciplined.

Cerruti telegraphs from London that he is about to set to work on his mission there about the new Bank.

The Fiscal has accused *La Razon* for its article about the deserters' massacre.

Nevera has sailed for B. Aires.

Rosario 21.

There are 22 foreign vessels in port.

Customs have given 165,000 Nats. up to date.

Merchants complain greatly of Post Office, which has not enough clerks for the work.

Battle of Alsina Bridge celebrated here in the outskirts with 'carne con cuero,' music and fireworks.

THE COLORADO CAMPS.

The attention of the Minister of the Interior has been called to the extraordinary delays regarding the approval of the measurement of this section of National Lands, and it is to be hoped that Dr. Irigoyen will take some steps in the matter, either to order a new survey of the lands, or approve of that already made by the Government land surveyor, Sr Cascallares.

Three years have now elapsed since these lands were surveyed by the Nat. Government engineer, and it is certainly about time that the purchasers of lands in that Section should have their titles given to them, as in other sections still more remote.

It may not be generally known, yet it is a fact, that of all the National lands sold by virtue of the Rio Negro Loan Law, the lands of the Fifth Section are perhaps the most important, embracing, as theydo, the rich landsin the valleys of the Colorado and Rio Negro, as also the lands on the sea coast between these two rivers. The delays attending the survey and its approval have been occasioned by two causes. First, many of the lots numbered on the first plan drawn up have fallen in the sea, or for want of sufficient area have been eliminated in toto. Second, all the lands near the town of Patagones and on the banks of the Rio Negro are occupied by old settlers, who, although not purchasers by virtue of the loan law, have certain established rights which the National Government very properly, by decrees already published, have notified will be respected.

But although these matters of minor detail have to be consulted and dealt with, still sufficient time has now elapsed, and "bona fide" third parties very justly complain that they are prejudiced by the non-delivery of title deeds, which, were the lands in any other section, would have been long since made out.

Some of the richest lands in this province are on the banks of the Colorado, and many purchasers are but waiting to have the title deeds made out to stock same. Already Sr Luro, who holds 100 leagues on the Colorado from the Provincial Government, has begun to make 'poblaciones,' and is sending cattle and sheep on to the land, and we know of many others ready to follow his example, as soon as their papers are perfected. We trust, therefore, that Dr. Irigoyen will at once take steps to have the surveys approved, and the titles to the purchasers delivered.

Along the sea coast, at the mouth of the Rio Negro, and along that river in the neighbourhood of Pringles, the estancieros and old settlers have presented their claims and maintain their right to purchase the lands they live on, in preference to third parties. The Government has recognized their rights, but now the difficulty occurs that these old settlers have not as yet purchased their 'boletos', and hence they are now compelled to enter the market and pay 40 to 50,000 m/c for these very 'boletos' that were originally issued at 10,000 m/c.

It is even possible that they will have to pay much higher prices for these 'boletos,' owing to their great scarcity in the market and the demand that exists for them by certain parties who know where good lands still are to be 'ubicared' or purchased, and which can be had by holding these 'boletos.' One party who has occupied and rented some land on the sea coast has petitioned for the purchase of his land, but finds that he must pay so much for the 'boletos' that he cannot afford to buy them—whilst the tenant has purchased the 'boletos,' and will, of course, remain with the land.

On the Rio Negro some of the old settlers are now buying these 'boletos' in order to secure their lands, as some Frenchmen have gone down there with cattle from Bahia Blanca to settle on these lands.

All these many difficulties would have been escaped had the survey of the lands been approved of two years ago, and every day's delay increases the difficulty. We trust, therefore, the Minister of the Interior will at once adopt measures to have the survey approved, and the titles delivered to the people who are entitled to them.

The Galicia's Mails.

London, May 26th.

Her Majesty, accompanied by Princess Beatrice, Princess Elizabeth of Hesse, and Countess Feodore Gleichen, left Windsor Castle last evening for Balmoral.

In the House of Lords yesterday, the Earl of Derby laid on the table papers respecting Zululand and New Guinea. The Naval discipline and Enlistment Acts Amendment Bill was read a second time, and, some other measures having been advanced a stage, their lordships adjourned.

In the House of Commons, on the motion to go into Committee of Supply, Mr. Bryce called attention to the neglect of the Porte to carry out the reforms in Armenia and Macedonia stipulated for in the Treaty of Berlin, and to the dangers of the peace of the East likely to result therefrom. Lord Edmond Fitzmaurice replied to the effect that a game of shuttlecock and battledore was being played by the Porte, with the object of deferring the settlement which had been suggested. Mr. Gladstone accepted the resolution which Mr. Bryce had moved, with a verbal amendment. Dr. Lyons was in the course of introducing his scheme for reafforesting Ireland when the House was counted out at twenty minutes to nine.

Mr. Goschen yesterday presided over another meeting of the Standing Committee of the House of Commons on Trade, when the consideration of the Bankruptcy Bill was resumed at Clause 36. The Committee had agreed to Clause 41 at the hour of adjournment.

Our Special Correspondent in Moscow telegraphs that fancy prices are being paid for copies of the proclamation thrown to the public. The Emperor has now forbidden any more copies to be thrown, as the struggle to obtain them was so violent, that a peasant was seriously injured yesterday.

Yesterday the French Minister of Marine informed the Tonquin Committee that orders had been sent to Captain Rivière to repulse by force the 2,000 Chinese troops which left Tientsin on May 7, if they attempted to cross the frontier into Tonquin.

From Paris the death is announced of M. Edouard Laboulaye, a member of the Senate and Director of the College of France. A memoir of the deceased appears in another part of our impression.

A number of decorations of the Royal Red Cross are announced in the *Gazette*. The list is headed by the names of the Princess of Wales, the Crown Princess of Germany, Princess Christian, Princess Beatrice, the Duchess of Connaught, and the Duchess of Teck. The Imperial Order of the Crown of India has been conferred upon the Countess of Kimberley and Mrs. Grant Duff.

Mr. Shaw Lefevre, M. P., yesterday received a deputation upon the subject of the Charitable Trusts Bill, now before Parliament. In reply the right hon. gentleman took the opportunity of making some explanations and removing some misconceptions regarding the measure. It was almost identical with one which was produced in the House of Lords two years ago, and which passed that assembly with some important amendments which did not, in his opinion, improve its character. If the members of the deputation were agreed that there should be some means of reforming certain charities, and if that were understood, he did not think that there would be much difficulty at all events in carrying the Bill into Committee.

The annual meeting of the Brixton and Herne-hill Liberal Association was held last evening, under the presidency of Mr. Angus Morris, when speeches were made by Mr. Holms, the Hon. Lyulph Stanley, Mr. Willis, and Mr. Illingworth. A resolution expressing confidence in the Government was adopted.

The Lord Mayor yesterday presided at the fourteenth annual meeting of the Charity Organisation Society, which was held at the Egyptian Hall of the Mansion House. The report showed that the number of cases assisted through the district committees by grants, by loans, by employment, by letters for hospitals, and by recommendations to guardians, to institutions, or private persons, was 8,958; the number dismissed as not requiring relief, cases for the poor law, and ineligible, was 10,975, making the total of cases dealt with 19,933.

At yesterday's sitting of the Metropolitan Board of Works attention was called to the obstruction in the Strand caused by the laying down of the new forms of pavement, and by the operations of gas and water companies. On behalf of the Strand District Board of Works it was urged that various reasons accounted for the delay of the works now in progress, and it was further suggested that the gas and water companies had far too much power to tear up the public streets.

The stock markets yesterday were depressed in view of the settlement next week, and prices declined all round, but the tendency at the stock was stronger. In the foreign market Egyptian were chiefly offered. Mexican was exceptionally firm. Brighton A rose on balance, but other home railway stocks receded from ¼ to ½ per cent. American stocks fell ¼ to 1½. Consols receded to 102 to ⅛ for money and to 102 1/16, 3/16 for the account. £31,000 in gold was sent into the Bank of England.

LATEST FROM BRAZIL.

Rio de Janeiro, June 15th, 1883

The Chambers have continued chiefly occupied with the discussions of party questions apropos of everything, almost the only exception being the interpellation of the government upon their intentions in regard to measures for assisting the provinces out of the financial difficulties due to the revocation of the unconstitutional provincial taxes on imports. The interpellation, however, did not succeed in extracting much information from the President of the Council, who, though admitting that legislation is needed, merely declared that the long report of the government commission would be distributed to the houses, and also declared that, in the absence of express authorization, the government had no intention to assist provincial treasuries from the imperial one, although it is divulged that the preceding ministry had lent therefrom 700:000$ to the province of Bahia. The only important bill in discussion is that of the Land Forces bill for 1884-85, in the Deputies, and in the Senate the Land Forces bill for 1883-84, sent from the Deputies.

Dr Oliveira Bello is stated to be the new president of the province of Parana.

It is also said that Dr Jose de Sá Albuquerque has been nominated to the presidency of Parahyba.

Yellow fever continues in the city, without signs of early departure, and the mortuary returns show deaths of 4 to 8 per diem yet.

The police of S. Paulo have been arresting, on requisition from a Nitherohy judge, Canary colonists who had declined to proceed to plantations to which they had been assigned by their importers. In the case of the first eight so arrested writs of habeas corpus were sued out, and the S. Paulo Relaçao ordered their release, which no doubt will secure the release of those arrested later.

In Pará a new contract has been signed with the representative of the Braganca railway company for the construction of the line, the province guaranteeing 28:000$ per kilometer instead of 30:000$.

The Paraense company's tramways were opened to traffic on the 11th.

Bones of a Megatherium have been found near Sant'Anna do Livramento, Rio Grande do Sul.

The province of Sauta Catharina has abolished the unconstitutional taxes on imports and voted balanced estimates for 1883-84.

An extraordinary session of the provincial assembly of Rio de Janeiro is to be convoked to treat of the provincial estimates for 1883-84, the bill passed earlier in the year having been vetoed by the president.

By decree of May 9th authorization has been given to the English Bank of Rio de Janeiro, Limited, to operate in the Empire for a further term of 20 years.

The ironclad Riachuelo was launched successfully into the Thames on the 7th inst.

AN IRISH EXHIBITION.

There is now on foot in Ireland an enterprise worthy of note. It is a National Exhibition announced to open at Cork during the early days of July. Great results are expected from a project which in its mere arrangement has produced an effect not far removed from miracle. It has brought together in harmonious combination the elements whose discord makes the trouble of the land. Where Irishmen agree their unanimity is wonderful, as in the case of the mail contract. The Cork Exhibition has increased the prodigy. It has healed—for the time at all events—the feuds of creed, class, and faction, arrayed the fierce democracy of 'Rebel Cork' side by side with the local aristocracy, and joined in amicable endeavour Protestant and Catholic, Tory and Whig, Moderate and Separatist, Home Ruler and Fenian. The ordinary British mind will not easily conceive a pacific display of art and industry, science and manufacture, in a community which it associates chiefly with such products as Parnell the agitator, Deasy the dynamitard, and O'Herlihy the glycerineur. Playing at exhibitions while the incendiary goes about seeking whom he may explode, will suggest to the stolid Saxon the classic example of untimely levity. But there is another side to the movement. The earnest fashion in which the idea has been taken up, and the success with which it has been worked out so far, show that Irishmen, after all, can be practical and progressive even in Ireland, that they can bring a frugal mind to politics, and that they are able to sink their differences and to suspend indulgence in treasons and strategems when it is "good business" to do so. There is instruction, if not promise, in the occasion which brings together on a common platform for a common purpose the Orange Lord Lieutenant of the county and the Nationalist Mayor of the city, the first families of Montenotte, ultra-loyal in sentiment and haughty as hidalgos, and the plebeian patriotism of the Marsh. The Cork Exhibition teaches the double lesson that the quarrels of Irishmen are not hard to reconcile if they would only try to reconcile them, and that, as Lever thinks, they play at being disaffected and conspire more for want of something better to do than from any malignant humour at heart.

They were men of bold and sanguine spirit who started the undertaking. No scheme could appear more desperate than that of an exhibition in the South of Ireland at a time when this part of the country especially was in the reaction from a furious excitement, and put out of holiday mood by the pressure of the Crimes Act. A still more formidable difficulty was the want of a local base of operations. Munster, like the two contiguous provinces, is practically destitute of manufactures, though curiously enough one of the most remarkable outcomes of the Exhibition is expected to be the proof that the woollen industry has actually put down roots and established itself in the South, where it may be developed with time and effort into a pendant to the linen trade which has made the North so prosperous. The promoters of the Exhibition would have had to make their bricks for the most part without straw but for the cordial response they received wherever they invited help and sympathy from outside. The fifteen thousand pounds required to defray the expenses up to the opening date have been subscribed all but a narrow margin, which the committee believe the friendly interest shown in their project will secure. Indeed the project has been pushed in all its details with a thoroughness not usually associated with Irish ideas. A deputation, composed of volunteers from the committee, have scoured Ireland and invaded Great Britain itself in behalf of the design. This forlorn hope, commanded by Sir George Colthurst, and including such capable colleagues as Mr Shaw, M.P., Mr Ludlow Beamish, Mr James Ogilvie, president of the Cork Literary and Scientific Society, and other gentlemen of like calibre, have done their spiriting with effect. The enthusiasm has spread to the ladies, who have stepped down and out from drawing-room and boudoir, and engaged in the cause with the ardour of the sex. At the last meeting of the Ladies' Committee the honorary secretary, Lady Colthurst, of Blarney Castle, announced subscriptions collected by the committee to upwards of £600. The Countess of Bandon, the Countess of Cork, Lady Arnott, Lady Carbery, Lady Aldworth, and Lady O'Sullivan are the leaders of this remarkable mission.

The Exhibition will be very handsomely housed by Mr Walker, the architect. Its site is the Corn Market, a large enclosed area, close to the different railway termini. The covered space will be three times greater than that of the late Dublin Exhibition, the disastrous management of which served as a warning to avoid the intrusion of religious or political questions into any similar experiment. The Exhibition building has been already brought near completion in a style which combines architectural grace with structural convenience, and offers a model of what such an erection ought to be. Sections from A to K have already been largely engaged by intending exhibitors, the great majority of course Irish, but many among them English, several American, and not a few from the continent. The sections include a display of articles manufactured and of raw materials produced in Ireland; articles or raw materials produced in other countries; machinery suited to Irish industries; paintings, sculptures, carvings, china, antique furniture, armour, antiquities, plate, lace, and other works of art and a general loan collection. There are also in the programme an exhibition of agricultural works and machinery, and a show of appliances used in the culture, capture, and curing of fish from both sea and river. The department of raw native material is expected to form a particularly important and attractive feature. It should have a special interest for the political economist, the theorist on the Irish difficulty, and the speculative capitalist who, for one thing, will find themselves in care of a capable and trustworthy guide in Doctor Sullivan, President of the Queen's College, and one of the first practical scientists of the day, who has taken charge of this section.

The authors of the Exhibition hope that one effect of it will be to draw strangers to Cork. The lure is specially contrived for the British and American globe-trotter, both of whom have become rare birds in disturbed Ireland. It remains to be seen whether the device will tempt the English tourists from foreign haunts to a domestic scene. There is much to forgive and forget before the Englishman bent on holiday can make up his mind to enjoy it in Ireland. But if he can get over his prejudice, the Cork Exhibition will give him a rare opportunity of seeing the most interesting part and people of the island in their best aspect. It is safe to say he will be pleased with his experience. Cork itself is one of the most picturesque cities in the world; it is, moreover, the chief centre of a region which contains Killarney, Glengariffe, and many another less famous but hardly less beautiful spot. The visitor soon tires of Belfast, with its prosaic prosperity, its staid populace, its smoky air—all so home like. He speedily takes disgust at the dingy dulness, the squalor and pretence of Dublin. In Cork he will find variety and freshness. There is a quaint Continental air about the place; the streets near the Mardyke will recall Holland; the Coal Quay Market will suggest a ragged reminiscence of, say, the market place at Dieppe. Much might fairly be said about the beauty of "the Naples of the North," as its proud citizens call it. The scenic effects are really very fine and very numerous. The artist eye should linger long on the view of the city from Wise's Hill, or upon the lovely valley of the Lee as seen from Sunday's Well, with the city spires and gables rising trom tufted woods on the left, the opposite slope a charming medley of turret and tree, and the landscape stretching westwardly in glade and grove and gleam of winding water to the sky-line, as soft and clear almost in this mild climate as in Italy. It would be hard to use extravagant terms about the picture which unfolds itself to the traveller by river between Cork and Queenstown. Every foot of that ten or twelve miles is a double panorama. For the rest the city is fairly progressive, and the citizens plume themselves not unreasonably on their literary taste and high intelligence. Strangers with a turn for that sort of thing will note the "Irish eyes," the complexion, and the carriage of local beauty as it appears in the fashionable promenade of Patrick-street. He will, perhaps, reflect that this is the capital of Munster, celebrated by laureate Tickell as "famed for maidens fair,"

It is very strange and very sad to have to write of an Irish enterprise in an Irish town as an attraction which the British visitor may enjoy with safety, as well as with pleasure. But the promoters of the Cork Exhibition have it in their scheme to repair as far as they can the harm that agitation has done their country. The idea deserves encouragement. Englishmen may easily make a worse choice for their annual holiday than Cork during the Exhibition. Prejudice apart, it is certain they will find in such a visit much to interest, a good deal to admire and more than they had reckoned upon to like.—*Globe.*

NORTHERN R.R. OF BUENOS AIRES.

The ordinary general meeting was held on Friday, May 4, at 8 Draper's gardens, Throgmorton-avenue;

Mr. C. S. Hayne, Chairman, presiding.

The Secretary (Mr. J. Wilson Theobald), read the notice convening the meeting, and the report and statement of accounts were taken as read.

The Chairman said the report and accounts contained many features which tended to show that the tide of prosperity which had come upon all things in Buenos Aires had at last begun to flow over the affairs of this Company. During the year ending December 31st, 1882, the Company certainly did not show any great increase the amount of the increase being £1,276, which was chiefly upon goods traffic, the passenger traffic showing a small decrease. Nevertheless, they would observe that in the number of passengers carried there was a very fair increase—namely, 35,000, and the reason why the increase in receipts did not correspond was that they found it necessary, as a matter of policy, to reduce their fares. He was able, by a telegram, which had been recently received, to inform them that since the beginning of the year the total excess of receipts over the corresponding period of last year amounted to £4,500, and also since the commencement of the year, up to the 25th of March, they had carried no less than 48,000 additional passengers as compared with last year. Passing over the receipts they came to the expenditure on revenue account, and then there were some features of which they would very naturally require some explanation. Having referred to the illness and death of Mr. Crabtree, the manager, and the consequent changes, the chairman said there was another reason why additional expenditure had come upon them, which was the increase of wages at Buenos Aires. The next paragraph in the report to which he would call attention was the purchase of the San Fernando branch. The history of the S. Fernando branch was this:—It originally belonged to a Company which was in the hands of an American gentleman named Hopkins. He remembered when he was first connected with this Company Mr. Hopkins came over to England and endeavoured to float a Company here, the property of which consisted of this San Fernando branch and a mole attached to it, where it was hoped all the sea-going traffic of Buenos Aires would eventually come. Well, he failed in floating this Company, probably opening his mouth too wide. He wanted to start a Company with £200,000 capital for this miserable San Fernando branch; but the thing got into difficulties, was shut up, and was not worked for years. The contractors eventually came to the Directors of this Company and asked them to work it, and they had for four or five years worked it at cost price. They had frequently had the offer given them at various figures. At last it was offered for public sale, and it was purchased upon what he thought they would feel were admirable terms. They got a good deal of traffic from it, but its chief value, of course, to this Company was for the traffic which it brought over the rest of their line. It would be satisfactory to the shareholders to observe that they had been going on relaying the line. They had relaid with steel rails 1,800 yards this year, and in the course of the next two years there would be only about half a mile left of the line which had not been relaid with steel rails. When this had been done he thought they would find there would be a great reduction in their charge for maintenance. There was another item in the balance-sheet which, he was sorry to say, was a large one, and which might attract the attention of the shareholders, and that was the "Sundry accounts due to the Company," which amounted to £10,600. When he told them that of that £10,600, £7,000 was money due to them either from the Provincial or National Government he thought the shareholders would appreciate the difficulties under which they laboured in conducting the affairs of the Company. The money was due to them from the National Government for carrying goods and from the Provincial Government in respect to an old claim outstanding for ten or twelve years. He did not think the Directors anticipated any very large expenditure in the future on capital account. There was only one thing they could see necessary, and that was the rebuilding the station at Belgrano. The increase of traffic to which he had called attention did not include any of the long-expected brick traffic, and therefore he hoped that in the present year they would find the receipts were still further increased by brick traffic, and the public works be commenced. In order to be prepared for that they had ordered a considerable number of wagons for the purpose of carrying on the traffic, and they would be in Buenos Aires before the end of the year. Without compromising the Board to anything—in fact it had not been mentioned yet in the Arcana of the board-room—he thought he might be able to state that if the traffic went on increasing at its present rate, before the end of the year they might be able to pay something further to the guaranteed preference shareholders in respect to their arrears of dividend. He stated this as a private individual and not as an official of the Board. He thought that they would agree with him that this report presented many features which showed that the Company was at last coming back to its original prosperity, and he had great pleasure in proposing that the financial statement now submitted to the meeting be received and adopted. He should be glad to answer any question put by any shareholder, to the best of his ability.

Mr. H. T. Browne seconded the resolution.

After replying to questions put by several shareholders upon various items in the report, the report and accounts were put and carried unanimously.

On the motion of the Chairman, seconded by M. H. D. Browne, a resolution was passed declaring a dividend of £3 10s. per cent. per annnm on the guaranteed preference shares for 1879, payable on and after the 9th of May.

Messrs. C. Rivas and S. Rostron, the retiring Directors, were then re-elected, and the auditors, Messrs. J. Hutt and P. P. Cockshott were also re-appointed.

A vote of thanks to the chairman terminated the proceedings.

EDITOR'S TABLE

The first thing on our Table yesterday morning was a *Daily News* of May 26th, sent by our enterprising and 'inolvidable amigo' Dewey. We at once roared our blessing to him through the telephone; but he told us, later in the day, that he had not heard a word of it, and thought we had not received the paper and were saying something in the "loud and deep" line instead of blessings. The papers are full of news. The French seem to be getting into a war with China as fast as they can; in fact they *are* at war with that power, as Commander Rivière was killed in a sortie against 2000 Chinese troops, and not by the *natives*, as Havas had it. Count Moltke has been on a tour in Italy and, by a curious coincidence, his route lay exactly along the French frontier. His note-book was never out of his hand, and the people, and the military cheered him to the echo wherever he went. The Czar's coronation fetes were dazzling, far grander even than those of his father's crowning, which we all remember.

Mr Beaumont has favoured us with another letter on Ostrich Farming. It strikes us that now, when birds are selling for half nothing, is the time to "plunge" into this very paying business. Mr B. ought to know something about African ostriches and their feathers, and to him this country is greatly indebted for being the first to import these valuable birds in any number, and show what can be done by pluck and hard work. He may well say that the estancieros of this country are still sleeping over this splendid industry.

The cold is reported to be awful in the camp. We don't doubt it. There was a razor-like feel in the air of town yesterday, so what must it be in the open prairie?

Three hundred of the city Figaros are about to petition the Lord Mayor to let them soap, shave and snip all day on Sundays as well as week days. Barbers are odiously fond of money.

At the meeting called by the Hon. E Monson, Her Majesty's Minister in Montevideo, to give some explanations about the sale of the British Cemetery there to the Banda Oriental Government, it was announced that Her Majesty's Government has approved of the terms proposed.

Nobel the great dynamite chemist, has recently published an explanation about this explosive to tranquillize the public mind in Europe. He says that all the talk of blowing up cities, ships, etc., with dynamite is pure nonsense. Its effects are purely local, and the Professor states that petroleum and alcohol are far and away more dangerous explosives than the dreaded dynamite.

The Austrian military attaché in Paris reports to his Government that France is preparing for war on a far larger scale thau her 'outre-mer' expeditions, numerous as they are, would warrant.

Telegrams from Corrientes report a mild political scrimmage at Esquina, the result being the imprisonment of the editor of the *Voto Libre* and some others. It is curious how easily provincial editors get into jail when politics are lively, but we believe they don't find it so easy to get out.

The Californian doctors have discovered a new way of curing old complaints. Two of them recently set to and pommelled each other into jelly in their patient's room. The sickman laughed so heartily that he recovered completely. We commend this "striking" innovation to the Faculty of Buenos Aires.

The new Rio Cuarto station on the Andine Railway is to be within a stone's throw of the Powder Factory. Pleasant news this for travellers on the line. The end of powder factories is to blow up, as that of all theatres is to be burned. It is purely a question of time.

The Southern camps are in an awful state after the recent rains. The Ayacucho and Tandil diligence was stuck in the mud for a whole day lately, between the two towns.

A negress named Martha Hughes has frightened the wits out of all the darkies on the Lower Mississippi by predicting the end of the world at an early day. Thousands have left their work to pray and prepare for General Smash.

The half-brother of Napoleon, King of Rome, Prince Federick Albertide Montenuovo, aged 62 (son of Marie Louise, Napoleon the First's wife, and her second husband, Field Marshal Count Neipperg) has just come out completely cured, from the madhouse where he had been for the last two years. He is now with his son in his Chateau Steinam Anger.

Some of our colleagues report that ex-General Mitre will be proposed as a candidate for the Governorship of the Province. He would make an excellent Governor, and we suppose would have no objection to promise to stop the works of that "ignus fatuus" La Plata. No matter who is to be the next Governor, he should be made to pledge himself to this before election.

The Colon Theatre, now Municipal property, only produces a monthly rent of $50,000 m/c, including its saloons, shops, the Cafe Colon, etc. This is a very low rent, and it is said the Lord Mayor will put on the screw and double the rent at least.

This is the 106th anniversary of the birth of Admiral Brown, yet there is no statue to him in the land he fought so well for. Happily, there is some chance of justice at last being done to the great sailor's memory in this way.

The Feast of St. Louis de Gonzaga was celebrated at the Cathedral yesterday with great pomp. All day long the tramways were crowded with the children of the schools going to and from the church.

As Leo XIII. was recently conversing with a French lady in her native language he found himself at a loss for a word, and asked her if she spoke Italian. The reply was in the affirmative. "Then," said the Pope, "we will use my native langnage, for I fear that if I employ yours I may have to compromise my infallibility!"

The breeze about the Salta extension is still blowing. Sr. Olascoaga, Director of the extension works, has resigned; and the National Department of Engineers has petitioned the Government to dismiss one of its members, Sr. Pelleschi, for a letter he published in the *Nacional*.

The French steamer Congo smashed her screw blade between Bahia and Pernambuco, on the way home, and had to put back to Rio for repairs. Her passengers will have to wait in Rio till the Niger gets there next week.

The fiesta at the Skating Rink on Wednesday night, for the famine-stricken in Rioja and Catamarca was a great success. The place was crowded. The great game of the night was called "The Bariloche Pass" and caused most tremendous fun and laughter.

The "cronistas" are going hard at the Western Railway, once their bright particular star in its line. It beats the old days of the Northern line, when the best Spanish dictionaries could not supply adjectives strong enough for the exigencies of the case. Times have changed, and those who were first are now at the tail of the hunt. Such is life.

The Police Memoria for 1882 does not show any great change in criminal statistics, save and excepting suicides, which rose to 85, against 36 in 1881. This is an appalling stride in self-murder, Frenchmen being the chief offenders (in reference to their numbers) and Argentines treading close on their heels.

The estate of the late lamented poet Mr. Olegario Andrade, amounted to 80,000 pats. There are five heirs.

When George IV. was on the point of sailing for Leith, to visit Scotland, it was observed by a wag at Watier's, that "on the fitting-up of his yacht the King showed a great deal of taste —and deuced bad it was." The remark is eminently applicable, thinks the London *Truth*, to the recent embellishment of St. James's Palace, the interior of which now more resembles a new hotel than an ancient palace. Anything more shabby and tawdry and utterly incongruous than the decorations and furnishings of the state-rooms and the approaches thereto it would be difficult to imagine.

"Wiggins came in like a lion and went out like a dog with a tin-can appendix," is the way a Philadelphia paper dismisses the prophet of wind.

A new York colleague says:—

If there be truth in old proverbs this will be a bad year for England, for it was written centuries ago that—

LATEST FROM CHUPAT.

To the Editor of the *Standard*.

Derwyddfa, May 15, 1883.

Honourable Sir,

In the last batch of your valuable paper that arrived here, I find many references to our colony. In one of the papers I find a letter from Mr. M. D. Jones, of Wales, bearing upon the late occurrences here and their effect on immigration in our native land.

We, eye-witnesses and actors, to a certain extent, in the *drama*, take rather a different view of the matter to Mr. M. D. Jones, as far as immigration is concerned. There is no doubt but that such occurrences as these will tell to the disadvantage of every country that has to foster and encourage foreigners to make their home in a foreign land. It is the case especially with every British subject, whether Welsh or English, Scotch or Irish, They have been so accustomed to politics, long-established judiciary laws that have taken centuries to consolidate. Here, on the contrary, everything is in the act of forming, of consolidating. It is now we are brought through the fiery furnace of experience, and the fire must be hot, perhaps, with such heterogeneous elements. However, what has occurred here of late does not warrant such fears at home. Reserving for ourselves the merit or non-merit of the procedure of Commissaay Finoquetto and Messrs. Jones and Berwyn, everyone acquainted with the case will be sorry for the interception of the immigrants in Liverpool. True, this hasty affair will be a great drawback to the colony, especially so at the present juncture. More progress has been made here during the last two years than in the whole previous years taken together. Quietness, liberal and steady administration of the colony for another three years will place it beyond every danger, so far as hnman eye can see.

Now, our great need is a strong wave of immigration to complete the work begun and open new sources of wealth, of which, no doubt, we are in possession. To further this important movement Government has aided very liberally in sending down such a number of title-deeds. Nothing will secure the prosperity of a settlement better than giving a lasting possession of what settlers are farming for. Government will do well to strengthen the hands of their agents here to grant as many title-deeds as can be conveyed by law. This will give a new impetus to every one, and the half-heartedness that characterized the colonists will be sent to the four winds.

I am glad to assure you that things are settling down here, eagerly awaiting the decision of Congress and the granting us our Municipal power. The people are thoroughly awakened to their rights as citizens of a Republican Government, and they will not rest until it shall be granted. Let me impress upon all concerned the necessity of moving without delay in this all-important matter. Every hour of delay, of procrastination, is a loss to the colony and community that cannot be expressed in round numbers. This will be the safe antidote to the fears of our friends at home—it is this that will foster immigration from the British shores—it is this that will endear the country of their adoption to every settler and his children here, and will strengthen the future world-renowned Confederation.

Yours truly,

Colonist.

OSTRICH FARMING.

Merlo, June 20th.

To the Editor of the *Standard*.

Dear Sir,

I hope you will excuse and allow me space for a few more lines; and at the same time may I ask you to correct a slight mistake that appears in yours of the 13th inst. in my note on "Ostrich Farming"? Instead of "in Africa in 1870" in should be in "1879."

In a book entitled "South Africa," by Trollope, I read in that part referring to ostriches and their feathers, that pulling them is the most general and most profitable, as it gives "a heavier weight to sell." As this statement might not only mislead, but cause serious losses to young beginners, I would just explain that not only do *all* feather buyers make a *good* reduction in the price of pulled feathers, on account of the extra weight of quill, but it is most injurious to the birds, as small pieces of skin and flesh often come away with the quill, and the holes so injured frequently fill up and become what is termed *blind*; so that, year by year, the crop of feathers not only decreases but the growth becomes weaker, and many imperfectly-formed feathers make their appearance.

Some—I am glad to say, very few—ostrich farmers *pull* the feathers for the first three or four years, and by so doing get six or eight crops, instead of four or six, as they would do by *cutting* them and then pulling the *stumps* in six weeks or two months, when dry. The farmers who *pull* the feathers do so in the hope of finding inexperinced buyers for these ruined birds, at least so far as the crop of feathers goes, though doubtless, provided they were originally good feathered birds, they are equally as good for breeders.

I think the following figures, which may be relied upon as correct, will give some idea of the importance of ostrich farming at the Cape Colony six years ago, and it has increased considerably since; so that ostrich farmers need attach but little importance as to whether, as Mr. Trollope says, "the nursemaid affects them and the duchess leaves them."

I am sorry that, instead of giving the *total* shipments of feathers from the Cape Colony, I can *only* give the weight and value of feathers exported from Port Elizabeth, and therefore am obliged to pass without remark those shipped from Cape Town, which would be quite as much, or more than those shipped from the first mentioned port.

In 1877, the export of these beautiful feathers from Port Elizabeth *alone* amounted to 16 tons 6 cwt. 94 lbs! and was valued at £218,321. This is at the rate of £5 9s. 5½d per lb *all round!* Putting the figures into "moneda corriente," Mr. Editor, I think you will find that it amounts to more than twenty-six and a half millions?—not so bad an item from the export of *one* article from *only one* of the several ports from which feathers are shipped.

From October, 1877, to March, 1878—that is, in six months—I saw sold in London 12 tons 6 cwt. 43 lbs. of African ostrich feathers, which realized £163,761 17s. This is at the rate of £5 18s. 8½d. per lb. *all round.*

From September, 1882, to February, 1883—that is, at *six* auctions—Messrs. Hale and Son, of London, sold African ostrich feathers to the value of the almost incredible amount of £467,000! or to the mere trifle of close on *fifty-seven millions* "moneda corriente" of this country. This was just at six auctions, and by only one of the several feather brothers that there are in London, to mention nothing about those of Paris and New York.

These are only a few facts, but I think they clearly prove that ostrich farming forms a most important element in South Africa, contributing as it does so largely to enrich her farmers and merchants.

What are the estancieros of this country dreaming about? What are they doing, now that for the last three years it has been so clearly proved that these valuable birds not only breed freely in this country, but actually do better here than in Africa and give superior feathers—now that they have seen, or can see, at Merlo, birds bred in this country more than *thirty months old*, stronger and healthier and with better feathers than those brought from Africa? And yet—I address myself more especially to the "estancieros" of Cordova, San Juan and Mendoza—they slumber on, possessing as they do a climate and soil so well suited for this most important branch of farming!

Where do they for one moment imagine that all those beautiful feathers come from which their wives, daughters and sisters are wearing? Do they think that they came from Paris? If so, they are much mistaken. They come from imported African ostriches bred in this country, and are dyed and dressed in Buenos Ayres. If they doubt what I say, just let them ask for the bills, and they will open their eyes and learn that all I have stated is not a dream.

But I fear that I have encroached too far on your valuable space. In conclusion, I will only add that I have neither ostriches nor feathers for sale.

Thanking you very much, and hoping you will not consider me an eight-day clock,

I remain,

Yours truly,

Geo. Beaumont.

THE DEERING BINDER.

To the Editor of the *Standard*,

Sir,

Referring to some letters that have appeared in your American contemporary of late about a prize that was obtained in the Exhibition, held here last year: by the "Deering" Binder, As all the writers on this subject appear to be in the dark as to the way in which prizes were obtained in this exhibition, I beg to state that this so-called prize was awarded to the "Deering" Binder] after the Exhibition was closed and without any trial or competition on the part of any other machine—also that the only reason that the "Deering" obtained this so-called prize was in payment for the services of the Deering "expert" who hung up the lamps for the Electric Light in the said Exhibition. Colonel Sherman, the agent for the Electric Light, employed Ellithorp to hang up the lamps and used all his influence *after the Exhibition was closed*, to secure (by some means) what the jury appointed to award acknowledged they were incompetent to give without seeing the Binders work in the field.

I am Dear Sir,

Yours truly

Guillermo Ayr.

Facts

The Cliché adjoining is a perfect representation of the Mandrake Plant, now so extensively recommended by the most celebrated practicioners for all diseases of the Liver.
This famous curative is largely employed in
Dr. Schenck's
Mandrake PILLS
And which has made them so favourably known by the great number of cures of Liver complaint in this country during the past few months. The number of Physicians constantly using them for what are known as chronic and incurable liver troubles, attests their great value in all cases of this kind. The suffering can make no mistake in trying them, as they are purely vegetable and harmless.
A gentleman, well-known in this city, was cured of
Constipation
from which he had suffered forty years, by taking a few doses! This case has hardly a parallel in the history of medicine.

ON 'CHANGE.

June 21st, 1883

Patacon	25.00
Cedulas A	100⅝
Cedulas E	82⅞
National Bank Shares	103¼

Cedulas are in a very precarious condition, and the large amounts thrown on the market have a most depressing effect. The fall in stocks on the Bolsa may be the beginning of a reaction after the very high prices at which stocks have stood for the last three years. There appears not to be enough capital to carry the stocks held and offering; much money has been diverted from the ring and has gone into land, and it is a sign of the times to see crowds of land speculators fingering the maps on the walls, whilst the Cedula King and his acolytes are throwing several hundred thousand Cedulas amid the panic-shicken holders around the ring. Millions are being sunk in lands; the heavy speculators of yore have disappeared from the scene; some have gone to Europe, some have retired, others have taken to cattle-grazing. The fact is that Cedulas and shares are weak, and there is quite a stand-from-under feeling amongst holders of the former stock. The amounts offered at the ring and the daily issue of fresh paper from the Bank are too much for the market, and although bulls have hopes of a healthy reaction, there are few probabilities of same unless one of the two great causes of the fall ceases immediately. Those who thought that the stock had touched bottom at 83, now fix the limit lower.

Nearly 600,000 Cedulas were sold during official hours; 156,000 Series E changed hands for cash; several large lots were offered and produced a most bearish impression; prices, which had opened at 83¼ tumbled headlong, after some slight resistance at 83 to 82⅞. 237,000 were sold for the end of the month; rates opened at 83¼ and closed as for cash at 82⅞. About 200,000 were sold for the end of next month; prices opened at 83⅛, rose to 83¼ and closed at 82⅞. Thus operations during the morning were very large; the chief feature of the market is the heavy amount sold for cash, the proof that the holders are letting go.

Over 2,000 National Bank Shares were sold this morning. Twelve hundred were sold for the end of the month; rates opened at 103½ and closed at 103¼. Operations for the end of July embraced 900 Shares, prices opening at 104½ and closing at 104¼. The state of the share market shows the very low ebb of speculation; the stock is firmly held and there is some difficulty in securing shares for cash at the rates for the end of the month, but there is no life in the market.

Fifty thousand patacones gold were sold this morning for the end of the year at 25.10. As this sale takes place on the very eve of conversion of notes of the Provincial Bank it called attention. The conversion, meantime, will begin on the 1st prox., and the Board is about to notify the National Government of the fact.

Messrs. Pereyra and Nevares, the leading land brokers, sold to-day four square leagues of land in the IVth Section in the vicinity of Bahia Blanca, at the rate of $105,000 m/c cash. Seller, Mr. Angel Bianchi; buyer, Mr. P. Oliver.

Two thousand five hundred head of cattle have been sold in Lincoln "al corte" at $180 m/c., per head. Buyer, Mr. J. Videla; seller, Mr. Villafañe. 300 old cows have been sold in one of the Northern Partidos of this Province at $300 m/c for consumption.

Five hundred thousand francs were drawn in advance to-day at 5.14. From three to four hundred thousand francs reported done at 5.15 on France, and 5.15½ on Antwerp. Nothing reported done in sterling.

The Monte Leon arrived in the Boca the day before yesterday with a cargo of wheat and Indian produce. She brought three Indian hostages to the Government; one of them is Utracki, the son of the celebrated Cacique Inacayal, the great friend of the Christians, and who fought Commander Palacios at the foot of the Andes during several hours.

Mr John Fox, estanciero of Pergamino reports great rains out there, but the camps are in splendid condition; he says not for 30 years does he recollect so wet a winter in the camp. Some sale of cattle up there at 200 m/c 'al corte.'

We have received by the Bahia Blanca mail a most important letter, which we hold for our next. The Municipality of that rising town has decreed on a grand boulevard from the Station to the Plaza.

It was rumoured on 'Change to-day that telegrams had been received from London, announcing the declaration of half yearly dividends by the London and River Plate Bank 4 per cent, and by the English Bank of the River Plate 2 per cent.

The guarantee deficit to be met by the Nat. Government on the Eastern Argentine Railway, for last year has been liquidated, and ordered to be paid. It amounts to 291,681 pats.

The National Government has at last declared the town of "Posadas" the capital of Misiones. This is good news for the many parties who have bought lands about there. A large tract of fine land 25 square leagues with front on the river, is offering for sale in this market. The telegraph line has now been completed to Posadas.

The Custom House receipts for the present month keep up so well that it is probable they will reach last month's total, which was the largest on record. It is really wonderful the present receipts of our Custom House. The National Government ought to be well able to borrow at 4½ per cent. with such a splendid Custom House revenue, and such oceans of public lands for sale.

All the outside telegrams report intense cold at Mendoza. This is the coldest season on record, and at Bahia Blanca they expect next week to have snow.

There is more English money going into land than what people in the market know of. A London gentleman has just concluded the purchase of 70 leagues of land beyond Trenque Lauquen. Another English estancia, fifty thousand pounds capital, is announced; the contract for fencing the land was to be concluded to-day.

There was great talk on 'Change to-day about the arrest of a certain party at the suit of some European bankers. The party arrested is charged with representing himself as the agent here of the firms in question, a London detective has charge of the business.

Some brokers say that all the hypotecated stocks in the market are coming on the Bolsa, and this opinion being shared by many, causes a certain stand from under feeling. We very much doubt, however, if there will be any such flow of stocks at the end of the month to the Bolsa, as a rule what is anticipated on 'Change, rarely falls out. Yet money on stocks is abundant, and discounts in the open market are shockingly tight, they say none of the private banks would discount to-day.

Private London letters say that Mr. Carruti, the Montevidean broker, encharged with the National Bank scheme of the Uruguay is on his way to, but has not as yet arrived, in London.

The sales at the ring during official hours were:—
Cedulas—
For cash A 1,200 at 100⅝
For cash E 155,900 at 83¼-⅛-82⅞-83-82⅞
For June 30th E 237,000 at 83¼-⅛-83-82⅞
For July 31st E 190,000 at 83⅛-¼-83-82⅞
Sales, 584,100
National Bank Shares—
For June 30th 1,200 at 103½-⅜-¼
For July 31st 900 at 104½-¼
Sales, 2,100
Gold—
For Dec 31st 50,000 at 25.10

Four squares of land in Floresta were sold off by auction to-day at the rate of two reales per square yard. Mr. J. E. Hughes, the buyer, has secured a great bargain. The very cheap price of the land may be accounted for by the fact that there was only one bidder at the auction.

The Cedula market ruled brisk during after-hours; about 200,000 sold at 82¾; the market closed with buyers at this rate for the end of the month. The share market closed at 103⅜ buyers, but no business was done, as there were no sellers.

The sales at afterhours were:—
Cedulas—
For June 30th E 200,000 at 82⅞-¾
For July 31st buyer at 82⅞
National Bank Shares—
For June 30th buyer at 103⅜

The balance-sheet of the National Bank for last May is the subject of much comment. The comparative figures of May and April shew that the business of the Bank is extending in a very rapid ratio. The balance-sheets of the last five months shew at a glance the gigantic business of the Bank; never before were there so much activity and such a bustle of people in the narrow offices of the establishment. It is calculated that the profits made by the Bank up to date surpass a million of patacons. The operations of the Bank are not only extending in this city but immensely so in the Interior of the Republic. The amalgamation of the Banegas bank in Mendoza with the branch of the National Bank means in the eyes of the market a circulation of over $1,000,000 in notes in that Province alone. In spite of these very favorable facts it is a remarkable anomaly to see that the shares of the Italian Bank—with a capital of a little over $1,000,000, and without emission, without privilege, without the Treasury of the Nation, and last, not least, without the Government—are quoted in the market at 138 per cent, whilst those of the National Bank are drooping at 103¼. The causes must be attributed to the speculation that is going on at the ring, and to the speculative character of the majority of the shareholders of the Bank. The intrinsic value of the share of the National Bank can only be determined when speculation in the stock has been completely abandoned. The progress of the Bank is visible; what is wanted now is the confidence of the investing public.

Nothing more has been heard of the mooted request of the market to suspend the conversion of the notes of the Provincial Bank. The question is being ventilated in the leading columns of two Argentine colleagues. The market in general thinks that the Bank is in a position to convert its notes and to continue doing so for an indefinite time, unless a squeeze upset the money market. Meantime there is a general impression that it is best to leave things as they are. The Provincial Bank is doing more or less in this market what the Banque de France is doing in Paris. The present state of affairs is excellent, and few see the economical expediency of hastening affairs. Far better, many say, that the National Government make an arrangement with the Provincial Bank to carry out some important work of public utility instead of withdrawing its metallic notes, according to the stipulation of the law. But the drift of political affairs points to the fact that the Government will exact the execution of the law to the letter; the change in the market will redound to the benefit of the National Bank, which will then no doubt play the old role of the great provincial establishment. At all events there is an impression that if the conversion law is not enforced claims will be put in by the National Bank to strengthen its position and compensate it for the conversion that is daily taking place over its counters. All look forward to the upshot of affairs with the greatest interest, and betting on the fate of the conversion is as brisk as speculation in Cedulas and shares.

Capital is going fast into large tracts of lands; several hundred leagues of land are now in the hands of British capitalists and British companies. Land-brokers think that the speculation is at present in a mere embryonic state and anticipate much more activity at the end of the year. The formation of several land companies has been talked of in the market of late, and if they begin to buy, we may look forward to a further rise. The upshot of this speculation depends on the nature of the investments. Good lands are cheap at present prices if turned to account or in the hands of men who can afford to hold on to them indefinitely. The speculation of the moment is specially centred in lands close to railways in this Province, in San Luis, Mendoza and Santa Fé. The frontier lands that are selling at Trenquelauquen at $150,000 m/c per league, if middling camp, are cheap at double the price if stocked and turned to the same account. There are very many small investors at present looking after cheap lands far outside, and very much interest is visible in the outlook of the lands lately reclaimed from the Indian in the triangle of the Neuquen and Limay. It is stated that these lands will be handed to the officers of the expeditionary forces; if so they will promptly come on the market, and the probabilities are that they will fall into the hands of Chilian investors, who have already their eye on the purchase. All these lands are close to Chile, and are well known to our Transandine neighbours.

Advices from Montevideo report a very dull state of affairs in that market. The great speculative stocks on the Bolsa are firm and the markets rule very dull in consequence. In official circles telegrams are daily expected from London and Paris with regard to the problematical fate of the great National Bank of Uruguay. Large amounts of exchange reported passed at 5.37-38 on Antwerp and 51d. on London. The produce markets are dull operations very limited. Small lots of wool are sold daily, but there is little left. Discounts in the market are easy and the Banks are liberal. A native paper announces the formation of a London Company with a capital of £200,000 to export fresh meat.

From the Plaza Once de Setiembre we have the following:—
30 waggons arrived with produce.
The sales were—

The steamer Meteoro, whilst leaving Parana on her way to Santa Fé, collided with the cutter Catalina Amalia; both were slightly damaged. These collisions are becoming very frequent in the rivers, and arise from carelessness.

Messrs. Schwartz & Co., of the Casa Amarilla, have requested permit from the Captain of the Port to pick up the remains of the tug-boat Lydia; the removal of same is necessary, as the hulk obstructs passage in the river.

The Vandyck entered yesterday from Liverpool; she will unload several hundred tons of cargo in this port and then proceed to Rosario to discharge over 10,000 packages of merchandise.

H.M.S. Sylvia left the Boca yesterday morning; she goes to Montevideo.

The steamers Pascal, Havre, Dants and East Anglia arrived to-day. Freights by steamers are reported very dull, although little more is being shipped since the weather cleared up. The very many steamers in port and others on their way out keep the rates down. There is, meantime, some demand for sailing vessels to load up rivers.

The Ville de Lisbonne left to-day for Barcelona.

The Teria is the last steamer of the Marquez del Campo's line posted for the round trip to the Pacific. The route of the line next month will be limited to plying between the R. Plate and Spain, calling at intermediate ports. The trade of the Pacific with the mother country is not large enough to support a line of steamers, and the present lines of the Pacific Co. and Cosmos defy competition.

The British barque Herminia arrived yesterday in Montevideo from Swansea. The Galicia arrived also.

The following vessels entered the Riachuelo yesterday:—
Steamer Cisne, from Montevideo, with general cargo and a few passengers.
The Norwegian barque Hellespont, from Glasgow, with general cargo, consigned to Messrs. M. Forrester & Co.
Steamer Onix, from Concordia, with cargo of ñandubay posts, and five small vessels with produce from the rivers.

The helm of the Rio de la Plata has been repaired, and she will begin her regular trips on Saturday.

The Italian steamer Italia is expected to arrive from Europe this week; her agents will send her to the Boca, where she will land a crowd of emigrants.

The French steamer Poitou is expected in port the day after to-morrow with 400 emigrants from the Mediterranean. A telegram from Rio announces that she passed that port without entering on the 18th.

The Provincial Bank discounted yesterday five millions currency. One of the private banks discounted a small amount.

The legal expenses of the Diaz testamentaria exceeded $300,000 m/c. The testamentaria in question amounts to $15,000,000; the fees to lawyers, notaries, &c., represent 5 o/o on the total amount.

The Supreme Court, in *re* Schmid *v* Bank of Santa Fé, has decided in favor of the latter. Dr. Lucio V. Lopez was the Pank's lawyer.

The steamer Maskelyne, Chevalier Hairby, left to-day for Europe with the following cargo:—
For Antwerp—
5,191 salted ox and cow hides
685 bags linseed
1,526 bales
For Liverpool—
436 bags dried blood
10 casks do
63 pipes tallow
166 packages meat
14 bales
7,278 salted horse hides
173 bags blood
For New York—
18 bales
For Rio—
12 horses
400 bags maize.

Passengers booked for the Maskelyne:—
1st Class for Europe—
Mr. Joseph and child
Mr. Dashwood
Mr. E. Xhardez
Mr. Shanahan
Mr. J. H. Jones
Mr. De Bruyne
Mr. L. Bossus
Mr. and Mrs. Laplanche and servant
Miss Laplanche
Mr. and Mrs. Baylias and 2 children
Mr. and Mrs. Agar
Mr. Offermann
For New York—
Mr. Joseph
For Rio—
Three 3rd class passengers.

I. H. S.
OF YOUR CHARITY.
Pray for the soul of Sister
MARY BERCHMANS MULREADY,
Religious of the Institute of the Blessed Virgin, who departed this life at Loretto Convent, Europa Main Road, on Saturday, 7th instant, shortly after 9 a.m., fortified with all the consolations of her holy faith, in the 31st year of her age, and the 1st of her religious profession.
"May she Rest in Peace."
Amen.

(COMMUNICATED.)

✠

I. H. S.
On Sunday afternoon, the mortal remains of the late Sister M. B. MULREADY (whose death was recorded in yesterday's *Chronicle*) were conveyed from Loretto Convent to St. Mary's and deposited in the contiguous Chapel of St. Francis. Yesterday morning, at 9 a.m., a solemn *Requiem* Mass was celebrated by the Very Rev. Mgr. Vicar General for the repose of her soul. At the close of the Sacred functions the funeral took place.

The lamented deceased was a native of Kilbeggan, Co. Westmeath, Ireland. Carefully nurtured in the principles of Catholic faith and piety, she soon become filled with an ardent desire to consecrate herself to God in the religious state. For this purpose, she entered a Convent on the Continent, but her health obliged her to return home. Nothing daunted by this disappointment, nay rather still more resolved to give effect to her wishes, she came to this City in June, 1875, and entered Loretto Convent as a postulant. In due course she was admitted to the white veil. After the prescribed two years' novitiste, she made her religious profession on 2nd June last.

Throughout, the state of her health inspired no fears. On the contrary, she seemed to enjoy our beautiful climate and to derive strength and renewed vigor under its benign influence. An exemplary Christian, a devoted religious, a loving, pains-taking, motherly teacher, she was faithful and punctual in every dnty, and shared unflinchingly with her sisters in the work of instruction in the upper as well as in the poor schools under their care. Working solely for God and for Christ in the humble retirement of her Convent, she was unknown to the world; her life was hidden in Jesus and, through Him, in those among whom she lived and for whom she prayed and laboured.

In July, the beginning of the end presented itself. An insidious disease, (malignant Chlorosis—a state of the blood in which there is a superabundance of colourless corpuscules—) soon made rapid inroads on her strength. She still kept about. Up to 22d ult. she took part in the religious exercises of the Community. From that date she was unable to leave her room. Last Wednesday she sat up for the last time.

On Saturday forenoon she received the last sacraments. Who can dsscribe her peaceful, calm resignation and jay at that solemn moment, the earnestneos with which she begged the priest to "help" her through the accompanying prayers, or the fervour with which she repeated them after him. When he had left her, she spoke with enthusiasm of the beauty of the sacred rites and of the consolation wherewith they had filled her. She expressed a buruing desire, if spared until Sunday, to receive her dear Saviour once more in Holy Communion. As long as consciousness lasted, her every word—her every sign and movement—was a prayer.

Being made perfect in a short space, she fulfilled a long time. For her soul pleased God.

The Loretto community will ever bear in grateful remembraace the affectionate sympathy evinced towards them yesterday by the devout congregation assembled in St. Mary's during the *Requiem* solemnities; By the numbers who accompanied the funeral to the Cemetery by the kind friends who closed their shops as the sad procession passed; and by the respectful demeanour of the crowds that thronged the streets on the occasion.

Whilst all this goodness is an expression of the deep appreciation in which all classes of our fellow-citizens hold the services of those whose labour of love is in the Schools among our little ones, or in the sick chamber in presence even of the agonies of death, it assures to the dear departed religious, on the part of those belonging to the household of Catholic faith, the charity of their fervent prayers for her eternal repose.

"MAY SHE REST IN PEACE." *Amen.*

DEATH.

On May 13th, at his residence Kilgibbon, Co. Wexford, Ireland, William Lett, Esq., in his 71st year.
"Blessed are the merciful for they shall obtain mercy."

A las 12 en punto del dia

Se dará principio a la venta por orden de su dueño el Sr. D Diego N. Carman, por falta de salud y tener que ausentarse del pais, de todas las existencias de la cabaña "El Lago."
300 animales vacunos Durham, importados y nacidos en el pais, entre las que se encuentran las celebres vacas Niñitas premiadas con los primeros premios en las Exposiciones de la Sociedad Rural Argentina y Continental, como tambien la madre y demas familia de dichos animales que no han estado en exhibicion.
Los toros Waterloo Grand Duke y Endimion son los que estan actualmente al servicio de la cabaña; el primero importado de Inglaterra, por el Sr Downes, y el segundo recibido por el Sr Elia, por el cual se nos pago 25,000 ps., siendo uno de los animales que mas han llamado la atencion de los criadores mien tras estuvo en nuestra casa y que con sobrada razon escribio el Sr Elia, "que mandaba animales en los cuales tenia la seguridad de perder dinero" probandolo el hecho de no haber repetido sus remesas.
200 ovejas y carneros Lincoln, siendo una parte de ellos importados expresamente para esta cabaña, de la del Sr Clark en Inglaterra como tambien los padres que las sirven. Estos animales seria demas recomendarlos, pues ningun criador de esta raza en el pais, ha alcanzado los precios obtenidos por esta cabaña.
EN SEGUIDA
Caballos, petizos, cerdos, un tilbury de 4 ruedas y una volanta de 6 asientos, americanos verdaderos, guarniciones, etc, etc., 1 carrito ingles, 1 carro mas, 2 carretas de bueyes, 5 maquinas de segar alfalfa, 1 id para dar vuelta al pasto de las que hay muy pocas en el pais, 1 rastrillo de caballo de acero, 2 maquinas de quebrar grano, 1 de aventar, 1 piedra de afilar, arados sobre ruedas de sanjear y simples, todos de acero, 1 fragua, vigornia, torno, banco de carpintero, piedra y todos los utiles necesarios para una herreria, y carpinteria e infinidad de objectos para el trabajo de un establecimiento de campo.
Este establecimiento solo dista una legua de San Fernando, lo cual facilita el embarque de animales para los rios o el Estado Oriental casi sin gastos y la proximidad a la ciudad facilita el trasporte de los animales por cuales quiera de los Ferro Carriles.
Siendo todas las vacas de esta cabaña mansas, pueden ser destinadas para leche o para raza.
NOTA IMPORTANTE—En la Estacion San Isidro habra carruages para conducir la concurrencia, á lo que se ruega haga su viage por los trenes que salen de Central a las 7.30, y 9.55 a.m.
El Remate se suspendera solo por lluvia el mismo dia señalado para la venta.
NOTA IMPORTANTE—Para facilitar a la concurrencia las mayores comodidades les avisamos que la Empresa del Ferro Carril a Campaña pone un tren extraordinario los dias Domingo y Lunes los que saldran de Central a las 10 a.m. cuyo tren parara en el paraje llamado Ombu, distante 10 cuadras de la cabaña. Este tren regresara de ese paraje a las 5 y 30 p.m. y el boleto de ida y vuelta solo costara $20.

A los Senores Hacendados.
Les participamos que el Jueves 20 de Setiembre, queda fijado para el remate de este año de los carneros Negrete Argentino procedentes de la cabaña "El Rosario" de los Srs. Francisco Chas e hijos.
Les recordamos que la raza nueva Negrete Argentino ha sido obtenida mediante una observacion concienzuda de treinta años sobre lo que conviene mas al pais por el tamaño, por la robuztez y por la lana cuya abundancia largo y finura no dejan nada que desear encontrando nuestras palabras su mejor comprobacion en los productos de la cabaña El Rosario, vendidos o exhibidos hasta la fecha.
Los Sres Chas procurando que los compradores ahorren gastos de cuidado etc. han fijado el espresado [illegible] el remate a fin de que los animales [illegible] presente año.

El Jueves 28 de Junio 1883
A las 2 p.m.
Estos campos estan situados en la IV Seccion de tierras Nacionales—zona que corriendo hacia el Oeste entre los fuertes Argentino y Puan, y a poco mas de 20 leaguas de Bahia Blanca, es reputada como de los mejores campos del Sud.
Los campos son de pastos abundantes, mezclados y tiernos, y el agua se encuentra con facilidad en todas partes, muchos de los lotes teniendo aguadas permanentes de riquisima agua.
Los informes sobre la calidad de este magnifico campo se encuentran en el Departamento de Ingenieros Nacionales y copias de ellas estan a la disposicion de los interesados en nuestra casa.
La situacion de estos campos no puede ser mejor; es una seccion que va a ser cruzada por varias lineas de ferro carriles cuyas concesiones deben ser despachadas por el Congreso en este año y sus arranques son el gran puerto de Bahia Blanca, llave principal de la inmensa campaña Sud, destinado a ser la California de la America del Sud.
El gran Ferro Carril del Sud, cuyos terraplenes llegan ya a Bahia Blanca que quedara abierta al trafico dentro de 4 a 5 meses, pasando a pocas leguas de Puan dejara los campos que ofrecemos en venta a un dia de distancia y puede facilmente preverse el impulso que dara a ellos asegurandoles un brillante e inmediato porvenir.
Tiene por linderos capitalistas los Srs. Cambaceres, Drysdale, Tornquist, Jaime Cibils y Buxareo, Pedro Saubidet, Saturnino Unzue y otros que a no dudarlo van a formar grandes establecimientos de campo, que forzosamente aumentaran el valor de los campos linderos.
La venta sera liberal, sin base de ningun genero y condiciones ventajosas para el pago. Una tercera pa.te al contado y el resto a uno, dos, y tres años de plazo con interes del 7 o/o anual y pagares hipotecarios.
Por planos, y permenores ocurran a nuestra casa Alsina 78.

En la VII Seccion
Num. 7, 8 y 13, letra C.
12 leguas cuadradas
En lotes de
4 LEGUAS
ESPLENDIDOS CAMPOS
Sin Base.
Terminada la venta de las 44 leguas de la IV Seccion, procederemos al remate de 12 leguas kilometricas situadas en la VII Seccion fraccion C. num. 7, 8 y 13, lindando por el Sud con el lote num. 18, propiedad del General D Nicolas Levalle, al Este una gran area de cien leguas del Sr D. E. Casey.
El campo que ofrecemos en venta es de superior calidad, por toda recomendacion solo diremas, sino que aqui tuvieron sus tolderias las tribus de Pincen, pues es sabido que los indios no se establecen sino en los campos superiores.
Hay en estos terrenos buenos Montes de maderas duras, que es una gran ventaja para la formacion de poblaciones, corrales etc. y estan cruzados por dos caminos.
El ferro carril proyectado de Bahia Blanca a Mercedes cruzara estos campos por un costado. La venta se hara sin base.
Dinero de contado.

Procederemos, por orden terminante de sus dueños, a vender en remate publico y bajo la base arriba mencionado, en nuestro casa, calle Florida 22, segundo patio, una y media legua de campo, apropiado por la calidad de sus pastos para la cria de ganado lanar y vacuno.
Este campo dista 5 leguas del Saladillo, donde pronto llegara el tren, 8 del Pueblo de las Flores y 6 de la Estacion Colorado, del ferro carril del Sud, lindando con los Señores Goan y Jose M Pinel, Laguna Chica y Sres. Lozano y Santillan.
Cada puesto pagan por un radio de 100 cuadras de 5 a 6000 % por año, siendo sumamente baja la base fijada con relacion a la venta que produce y a que estos campos jamas se inundan.
Inutil creemos llamar la atencion de las personas que se dedican a la cria de ganaderia sobre la bondad de estos campos, pues pocas veces se ofrece la ocasion de encontrar tan buenos en venta.

Venta Particular.
Llamamos la atencion de los capitalistas del pais, sobre la gran propiedad utilizada para el dique de la Colonia, consta de treinta mil varas cuadradas sobre el mismo puerto de la Colonia con estension hasta la lengua del agua y de ahi hasta el canal como queda marcado en el plano, siendo la parte la mas profunda del puerto de la Colonia, pues basta saber que la fregata inglesa de guerra "Volage" ha estado anclado a una distancia de una cuadra y media de la costa.
Esta concesion fue hecha por el Gobierno Oriental a perpetuidad consta de una casa habitacion con oficinas y dos barracas de material, cada una de ellas tiene capacidad para tres mil fardos de lana.
Como se ve, esta es una empresa de gran porvenir, no tan solo por la concesion de la parte del canal que es profundo como tambien el puerto el mas seguro en el Rio de la Plata.
La localidad se presta para establecer depositos o molino de vapor por la cantidad de trigos que se cosechan en sus alrededores.
Al mismo tiempo hay una quinta con una area de treinta cuadras cuadradas con casa de familia, caballerizas, arboles frutales, monte y bien cercada en una posicion magnifica de cincuenta varas de altura sobre el Rio de la Plata. Por mas pormenores dirigirse al Sr. Benjamin D. Manton, casilla de Correo 332.

"PLOUGHS"

"PLOUGHS" "PLOUGHS"
Messrs M. Forrester & Co.
Beg to announce to the Public that they have lately introduced into this country with great success the
Celebrated Two and Three Furrow Ploughs
OF
Messrs. HOWARD
ENGLAND
These **WROUGHT IRON PLOUGHS** fitted with breasts and shares of steel, have been extensively used in the Provinces and are destined to supersede the light and flimsy wood implements made by the Americans.
By means of a simple hand lever the onward movement of the animals raises the plough out of work at the ends, thus saving the driver the usual hard lifting connected with ploughing.
The two Furrow Plough is drawn by a pair of bullocks, thus doing double the work of a single plough and still with only one man.
These "Multiple" Ploughs are now almost universally employed in Australia and South Africa, and in recommending these implements Messrs. Forrester & Co feel confident that they are well adapted to the requirements of the Plate.
In order to procure these Ploughs orders should be sent in at once, or disappointment may be incurred.
